THE plan for Kentucky's representation at the Jamestown Exposition took tangible shape for the first time yesterday at a meeting of the Kentucky Jamestown Exposition Commission at which it was decided that the Kentucky building, or rather buildings should furnish a reproduction of Boonesboro, with its fort, cabins and stockade, to be built of oak, poplar and pine from Kentucky.

In the way of exhibits the State's agricultural and horticultural exhibits are counted through the instrumentality of the Commissioner of Agriculture, who is a member of the Exposition Commission, and has the power to collect, transport and install such exhibits at Jamestown. The State Geologist has in his care the exhibits returned from the St. Louis Exposition, and is looked to for their exhibition at Jamestown. In March of 1907 the Greater Louisville Exposition will be held in the First Regiment Armory, and efforts will be directed to induce the exhibitors to contract for space at Jamestown. Members of the Commission have been assigned to duty as Directors of various exhibits, and the co-operation of the heads of manufacturing, commercial and financial institutions throughout the State will be asked for.

A further feature planned by the commission is the celebration of Kentucky Day on some date during the ten days' stay of the First Kentucky at Jamestown.

The regiment will go more than 500 strong to the exposition and will in itself form a nucleus for a celebration in which the State's representation will be alike creditable in its numbers and its personnel. In order to carry out successfully these plans for Kentucky's part in the exposition, the sum of \$40,000 is required and but five months remain in which collection of it can be made. The work is unquestionably one of difficulty, but the exposition furnishes an opportunity for the display of Kentucky exhibits to Eastern and Southern visitors, which, aside from the ties binding Kentucky to Virginia, offers two reasons for every one which existed at Chicago or St. Louis. The work of preparation can be done and we believe that it will be done and done well.—Louisville Times.

A FEW more primaries in Kentucky and there will be no Democratic party. The recent primary, because of it being held on the general election day, is the cause of Kentucky having four Republican Congressmen, when there ought not to be but one, because the Third, Ninth and Tenth districts, which this year elected Republicans, are really Democratic districts and should have Democratic representatives. All there is to a primary is to cut out the weaker candidates and give the stronger ones a better chance to steal and in a few years destroy the party. Here is hoping that Kentucky has seen its last Democratic primary.

We sincerely hope that some of the counties in the Eastern part of the state will show up as many Democrats next year as they did in the recent primary.

## POLITICS AND POLITICIANS.

The Republican plurality in Indiana in the race for Secretary of State is 30,625.

President Gompers, of the American Federation of Labor, in his annual report advocates the continuance of labor unions in politics.

New York Republicans are worried over the result of the election in that State and are realizing that the displacement of Odell was a serious mistake.

The Commercial Travelers Anti-trust League of New York, has decided to begin a campaign in behalf of W. J. Bryan for the Democratic Presidential nomination.

In his message to Congress it is stated that the president will make

some suggestions concerning corporations doing an inter-state business. It is claimed that he will recommend the adoption of a law placing the institutions under the control of the government, defining the manner in which their business shall be conducted and forcing them to follow lines that will place the big and little concerns on an equal footing. The purpose is to place restrictions on the trusts and corporations of immense wealth that will curtail if not destroy their power as political factors and correct the abuses and evils for which they are responsible. This is the problem that the President will tackle, and if he has found the solution he has accomplished something for which every one will be grateful.—Ex.

## GOV. BECKHAM ISSUES A THANKSGIVING PROCLAMATION.

Frankfort, Nov. 14.—Gov. Beckham this morning issued his Thanksgiving proclamation, as follows:

Commonwealth of Kentucky, Executive Department.—That the people of Kentucky may properly observe our country's most hallowed custom, I hereby appoint, in accordance with the action of the President of the United States Thursday November the twentieth, as a day of Thanksgiving and prayer throughout the Commonwealth. On that day all business should be suspended; the eager pursuit for wealth should cease; the restless struggle for profit and gain should give place to quiet and peace, while the grateful people, in their usual places of worship, shall give to a generous and merciful God, who has so richly blessed us.

Our people have prospered beyond all precedent, our nation in little over a century has sprung into a position of power and might beyond the boldest dreams of its founders, and to-day commands the admiration and respect of the entire world. In material wealth we are without an equal. Nature has avished upon us her choicest bounties. The sunshine of peace and contentment sheds its genial light upon a happy land. To deserve and retain these things a due recognition should be given to the Divine source from which they come. In place of boasting of our greatness, let us humbly praise and thank Him to whom we owe all.

The strength and welfare of our republic, the endurance of its splendid institutions and the progress of our Christian civilization must depend upon the spirit with which our people can observe the purpose of this day, and recognize our obligations to the providence of God. In celebrating his occasion let us remember that no services of songs and no words of eloquent praise are so expressive of gratitude to the Almighty as are deeds of charity and kindness to the poor and helpless among us.

In testimony whereof I have hereunto set my hand and caused the great seal of the Commonwealth to be hereunto affixed. Done at Frankfort this 14 day of November, 1906, and in the 115 year of the Commonwealth.

J. C. W. BECKHAM,  
By the Governor.  
H. V. McCHESNEY, Secy. of State.

## Blood Curdling Story.

One of the most blood curdling stories ever told, is that told by Anna Eley, aged 14, of how her father took the life of her own mother. About one week ago this terrible tragedy occurred in the city of Louisville and while suspicion pointed to Eley as the murderer of his own wife, yet it was not known positively until Wednesday, when the little daughter who witnessed the awful crime told the story. Her story in part is as follows:

"Mother was lying on the bed, and I saw papa go to the bed and put his hand on her head. I did not think anything about that and was about to turn my head away, when I saw him slash at her throat and I knew something was wrong. Mamma did not make any noise

lapa went into the kitchen and then came back through the room and went into the front room and shut the door. I jumped out of bed and saw what had happened, and I commenced screaming, begging papa to come into the room. I ran to the door and tried to open it, but it was stuck, and I had hard work to open it. Just as I got the door open papa came in. He had on his pants and stockings. He said to me: 'Now, don't you talk about this, or I'll do the same thing to you.' He told me to take the baby and wash the blood off him, and I did. Papa went out somewhere but I don't know where."

The baby was sleeping with the mother when killing took place.

## ADJOINING COUNTIES

The Columbia News tells a story of a case of unconsciousness which has baffled the skill of physicians for twelve years.

Heschel Grider, son of a prominent farmer at Rowena, Russell county, has been in a stupor for twelve or fourteen years, during which time consciousness returned twice for only a few minutes. The family carry the unconscious man food at the regular hours, and place it on a table at his side. If the attendant remains in the room it will not be disturbed, but upon leaving the room and returning in a few minutes the meal will have been consumed. The man may be deposited in a chair or on a bed and will not move a muscle or change his position a hair's breadth. The cause is unknown, but about the time the misfortune occurred Girdler attempted to set off a blast, one made from a quart bottle of powder, the fuse becoming entangled around his feet and when the explosion occurred was considerably shocked.

A Seattle, Washington, dispatch says that hundreds of \$10 gold pieces are being "shaved" by an unknown person in that city. So well is the work done that it has escaped detection by some of the most expert bank cashiers. The criminal is evidently shaving the coins by placing them in a lathe and carefully trimming off the edges without, however, destroying the milling. Except for making the edges of the coins a little thinner than the body, the work of the brinall could escape detection by the expert bank teller. A Secret Service officer estimates that about fifty cents is made on the \$5 gold pieces and a dollar on the larger coins.

Gen. W. R. Shafter died Monday near Bakersfield, Cal. after seven days' illness of pneumonia.

Farmers of Fayette county have formed a plan for the erection of a large elevator and flour mill, to be independent of any millers' association and to be operated in the interests of the farmers only.

## Every Two Minutes

Physicians tell us that all the blood in a healthy human body passes through the heart once in every two minutes. If this action becomes irregular the whole body suffers. Poor health follows poor blood; Scott's Emulsion makes the blood pure. One reason why

## SCOTT'S EMULSION

is such a great aid is because it passes so quickly into the blood. It is partly digested before it enters the stomach; a double advantage in this. Less work for the stomach; quicker and more direct benefits. To get the greatest amount of good with the least possible effort is the desire of everyone in poor health. Scott's Emulsion does just that. A change for the better takes place even before you expect it.

## EQUITY BILL

AGAINST THE OIL TRUST WILL BE FILED BY THE GOVERNMENT.

### ANNOUNCEMENT WILL BE MADE

Dissolution of the Corporation and An Injunction Against a Continuance of Its Business Object Sought.

Washington, Nov. 14.—Messrs. Morrison and Kellogg, special counsel for the government in the Standard Oil cases, left Washington for St. Louis, where they will file the government's bill in the suits to dissolve the Oil Trust. The departure of these attorneys followed another long conference at the department of justice. The papers will be filed upon their arrival at St. Louis.

Arrangement has been made by the department of justice to make official announcement here the moment the attorney general has been advised of the filing of the papers. This announcement will consist of a carefully prepared abstract of the government's bill, showing the contents of the government and what the department of justice hopes to accomplish through the suit.

As has been heretofore stated, this action will be a bill in equity asking the dissolution of the Standard Oil Corporation and a perpetual injunction against its continuance in business in restraint of trade. The constituent companies now owned and controlled by the Standard, through which not only the price of refined oil is fixed, but the value of the raw product determined, will be made parties to the suit, and the government will seek to have them restored to their original condition as independent concerns.

Criminal proceedings against the managing directors and other officials of the Standard Oil Co. will not be brought concurrently with the proceedings in equity. Much of the evidence used in the equity suit can be utilized in a criminal proceeding, and it may happen that after the civil suit has been concluded criminal proceedings will be commenced. Until the suit is concluded the government will take no chances on individuals being given immunity, thereby preventing a successful termination to the more important action looking to the dissolution of the corporation.

### DIVORCE CONGRESS MEETS.

One Third of the Proposed Uniform Bill As Drafted Adopted.

Philadelphia, Nov. 14.—The National Congress on Uniform Divorce Laws, in session in this city, adopted today one-third of the proposed uniform bill as drafted by the committee appointed at the meeting held in Washington. The portion adopted include seven causes under which annulment of a marriage may be obtained and six causes for absolute divorce.

Delegates from 27 states and the District of Columbia and representatives of all Protestant denominations who attended the international conference on marriage, together with Catholic Bishop Shanley, of North Dakota, attended the discussions which were presided over by Gov. Pennypacker.

The causes for which divorce may be granted are infidelity, felony, bigamy, desertion, habitual drunkenness and intolerable cruelty.

Soldiers Fight Furious Battle. Cheyenne, Wyo., Nov. 14.—Quite a sanguinary battle occurred on the streets of Cheyenne when a detachment of artillerymen from Ft. Russell attacked a number of infantrymen, all on leave. Each side fought desperately with knives. Five men were cut and slashed, one of whom is expected to die. The wounded were taken to the hospital. The cause of the fight is an old feud existing between the two arms of the service.

### Pitcher Denies Statement.

Havana, Nov. 14.—Lieut. Col. William L. Pitcher's attention was called to an article in an American newspaper declaring that President Roosevelt had directed that an immediate report be requested from him as to whether or not he had been correctly quoted as denouncing negro troops while at Ft. Sheridan last year. In reply Col. Pitcher said that he had never entertained and never expressed such sentiments.

May Promote Brownson. Washington, Nov. 14.—Rear Admiral H. Brownson, who has just taken command of the American naval forces in the east, will, it is understood, soon be recalled to become chief of the bureau of navigation to succeed Rear Admiral Converse when the latter retires from that office.

For McKinley's Sarcophagi. Windsor, Vt., Nov. 14.—A contract has just been placed with a local granite firm for furnishing the material for the sarcophagi in which the bodies of the late President William McKinley and Mrs. McKinley will rest in the mausoleum at Canton, O.

The Galena Ashore. Astoria, Ore., Nov. 14.—The British ship Galena, from Junin, Chile, for this port, went ashore on Clatsop Beach. The officers and crew all came ashore safely. Capt. Powell has confidence in getting her off.

To protect the little ones and for the information and satisfaction of mothers the contents of each bottle of that wonderful children's remedy, Cascasweet, have been placed on every label. By the collision of two trains on the Baltimore and Ohio Railroad, forty-seven immigrants, who were seeking relief in this country from old-world oppression, were either killed outright or burned to death.

It is reported from a town down in Missouri that a young man bought 2,000 extra fine cigars, had them insured for their full value, smoked them up and demanded the insurance, claiming that they had been destroyed by fire. The case was taken to court and decided in favor of the young man. The insurance company then had the young man arrested for setting fire to his own property, and the same judge ordered that he pay a fine and be sent to jail for three months.

The Baptist church is being papered and the seats re-varnished, a much needed improvement. A good coat of paint for both the Baptist and Christian churches would be very much in order.

Judge Bethurum is evidently realizing that there is something in running for Congress, even though he was defeated. Never before in his life, has he been besieged by as many callers and those who cannot come just write to tell him which post office they want.

Mrs. R. M. Jackson, wife of President Jackson of the First National Bank, gave a "shower" on Monday afternoon in honor of the approaching nuptials of Miss Lucy McKee and Mr. Woodson May. The palatial home was beautifully decorated in ferns and evergreens and presented a splendid background for the beauty of those who attended. A large number were present, and many beautiful presents were received. Mrs. Jackson is receiving much praise as a charming hostess.—London Echo.

From the number who are having their lands posted against hunting, it begins to look as if the territory most favorable for the sport, will be cut pretty slim. But in this as in many other things the majority must suffer because of the faults of a few. There is hardly a man in Rockcastle county who would object to a little hunting on his land, if that was all there was to it, but in addition to permitting the hunting, fences are torn down, property destroyed, and in many instances stock has been killed or crippled by some reckless member of the party. If everybody would remember that good old saying: "Do unto others as you would have them do unto you," some of the most favorable hunting grounds would not be denied you, and privileges would not be denied all, because of the reckless acts of a few.

RENT PAYS FOR THE LAND.

FERTILE SECTIONS OF THE SOUTHWEST, WHERE LAND SELLS FOR \$15 AND RENTS FOR \$5 PER ACRE.

One of the remarkable things about Eastern Arkansas and Northern Louisiana is the fact that cleared land rents for \$5 per acre cash and can be bought for \$7.50 to \$15 per acre. It costs \$6 to \$10 an acre to clear it. Other improvements are slight and inexpensive.

The soil is rich alluvial, or made. It produces a bale of cotton per acre, worth \$45 to \$60. This accounts for its high rental value. Other crops such as corn small grains, grasses, vegetables and fruits thrive as well.

Alfalfa yields 4 to 6 cuttings, a ton a cutting, and brings \$10 to \$16 per ton.

In other sections of these states, and in Texas as well, the rolling or hill-land is especially adapted to stock raising and fruit growing. Land is very cheap, \$5 to \$10; improved farms \$10, \$15 to \$25 per acre.

The new White River country offers many opportunities for settlers. High, rolling, fine water—it is naturally adapted to stock and fruit raising. Can be bought as low as \$3 per acre.

See this great country for yourself and pick out a location. Descriptive literature, with maps, free on request.

The Missouri Pacific-Iron Mountain System Lines sell reduced rate roundtrip tickets on first and third Tuesdays of each month, to points in the West and Southwest, good returning 21 days with stop-overs. For descriptive literature, time tables, etc., write to

## Spasms St. Vitus' Dance

Many persons who suffered untold agonies from epilepsy, fits, spasms, and St. Vitus' Dance are today well. The strengthening influence of Dr. Miles' Nerve Tonic upon the shattered nerves having restored them to perfect health.

"I endured agony that words cannot express from St. Vitus' dance, which followed a very severe spell of rheumatism. I doctored with a physician, but the more I took of his medicine the worse I got. My mother's devotion saved me. After she had become almost heart-broken, as well as physically exhausted from constant care, by the advice of a neighbor she procured a bottle of Dr. Miles' Nerve Tonic. From the first dose to the last a continual change for the better was noticeable, and when I had taken eleven bottles I was well, and in robust health."

EDWARD D. BEAM,  
North Manchester, Indiana.

"Our little boy Harry, had spasms for three years, and although we doctored with many physicians, he continued to grow worse until he had ten spasms in one week. About that time our attention was called to Dr. Miles' Nerve Tonic. We began giving it to him, his improvement seemed slow, but when he had finished the fourth bottle the spasms had disappeared, and have not been seen now for years. We shall always recommend Dr. Miles' Nerve Tonic."

MRS. BELLE M. TINDALL,  
Hastings, Neb.

Dr. Miles' Nerve Tonic is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

## CORN CROP A BUMPER.

Commissioner of Agriculture Hubert Vreeland Saturday issued the following crop report which shows a comparative table giving results of the year, showing a bumper crop of corn and hemp for the year. The report says:

The wet weather prevailing in September continued until the first week in October, and wheat seeding and corn gathering were prevented. Since then the weather has been favorable and this work has proceeded without interruption. The average of wheat sown will be short, being 89 per cent. compared to 1905. That which was sown early is coming up nicely and with favorable conditions a good stand is indicated.

The corn yield will be large, being rated at 102 per cent. compared to 1905, which was also a large yield. Corn is damaged from the wet weather and lack of sunshine, maturing badly and at least 20 per cent of the crop will be unmarketable.

Winter oats. The average will be short on this crop, being 80 per cent compared with 1905.

Acres of rye and barley about up to an average.

The best treatment for indigestion and troubles of stomach is to rest the stomach. It can be rested by starvation or by the use of a good digestant which will digest the food eaten, thus taking the work off the stomach. Good for indigestion, sour stomach flatulence, palpitation of the heart and dyspepsia. Kodol is made in strict conformity with the National Pure and Drug Law. Sold by Chas. C. Davis.
